Wednesday Wrap for the Web

(Weekly Economic Update)

TALK ABOUT "HOT OFF THE PRESS!"

The Wednesday Wrap for the Web (WWW) is researched and written Tuesday evening and sent to you each Wednesday morning! Every month you receive four (or five) new economic updates/forecasts for only \$50 a month. (Please call for company pricing.)

Whether you upload it to your web page—adding your photo and name—or open it in your word processing

program to broadcast fax or E-mail it, the WWW will impress your referral sources with its current, engaging, and entertaining economic information.

All material is well written by Bill Fisher, nationally known finance and real estate writer. Bill was a successful real estate broker and master "prospector" before launching his writing career over twenty years ago.
